OBJECTIVE

Seeking a challenging position as a Junior Software Developer to leverage the knowledge and skills acquired from completing an intensive IT boot camp. Eager to contribute to a dynamic team and continue self-improvement in programming while gaining valuable industry experience. Committed to expanding technical expertise and passionate about pursuing a successful career in software development.

PROFESSIONAL EXPERIENCE

March 2023 –
Present

Software Developer – Better Pi Limited

- Software Development: according to user requirements and specifications to customize the existing template mobile applications(eg.changing logo, linking the application to company website, google firebase console and facebook)
- Application Maintenance: Ensuring the smooth operation of software applications by identifying and resolving bugs, errors, and performance issues. Testing the app for stability, performance, and compliance with content policies.
- Publishing on Google Store and Apple Store: Preparing the app by ensuring it meets the platforms guidelines and policies. Creating a new app entry for the app. Providing details such as description, app content rating, pricing and distribution. Communicating to the App Review team to ensure the app is available for download.
- Facilitation Online Payment(eg.Stripe, Google Pay and Apple Pay): Creating and verification account for the software application. Integrate the payment system or API into the website and application using the provided documentation and guidelines. Using the Sandbox environment or test mode to test the integration, simulate transactions, and validate the functionality before getting approval and launch.
- Documentation: Creating and maintaining technical documentation, including software design, development, and testing documentation, to facilitate future enhancements and maintenance.

September 2022 – April 2023 **Pharmacy Dispenser – Ladybarn Lane Pharmacy**

- Accurately and efficiently dispensing all patient's prescriptions are available.
- Liaising by email and telephone with hospitals, surgeries and dieticians to ensure prescriptions are available and patients' treatment is continued seamlessly.
